

National Grassroots Demonstration (NGD) - Home/DC Offices of Congress/Senate – Sept 25, 2007 & Sept. 26, 2007

<http://www.votekansas.org/reform/f/ngd/2007sep25> WHEN:

WHY: Sept. 25th or 26th - Between 11:00 am - 2:00 pm.

- **To Stop Mexican Trucks coming beyond the 2 to 25 mile buffer zone along the U.S.A./Mexico border.**

WHERE:

Every office in home states of all 100 Senators and 435 Representatives, or their Washington, DC offices

WHO / HOW:

Representatives of organizations (with a hundred or more voters) should visit the offices of Senators/Representatives in person about these issues.

Individuals should **fax** this to their Senators/Representatives on these issues.

HOW:

- **Emphasize the Following URGENT Issues** to all offices and demand a prompt, written response and the following legislative actions:

1. By 10/2/2007, U.S.A. Congress must pass legislation to keep all of Mexico's Trucking Companies from having any of their trucks coming beyond the current 2-25 mile limit into the U.S.A. where they exchange freight with U.S.A. trucks. President Bush should enact this legislation by 10/5/2007. By 11/5/2007, the U.S.A. Congress and President Bush should enact the **Absolute Advantage Foreign Trade Policy (at least for Mexico)** explained below in **Urgent Issues 2 and 3**.
2. **SUPPORT P.L. 480 Title I LOCAL CURRENCY SALES**, including a mutually beneficial trade deal with Mexico involving these P.L. 480 exports of U.S. agricultural products to Mexico and increased oil imports from Mexico (under Absolute Advantage Trade Policy instead of the current "Comparative Advantage" Free Trade Policy) for most of our oil imports.
 - Tell your Congress-persons to add \$5 billion to \$10 billion in Fiscal Year (FY) 2008 for this P.L. 480 Title I program with Mexico for this concessional loan of pesos to Mexican Government for infrastructure/other economic development very similar to U.S.A.'s WPA and CCC (and other) programs in solving the 1930's economic depression.
 - Also, tell U.S. Congress-persons to correct/improve U.S. true, active, crop-producing *family farmer's* price support program especially by adding **Parity Support Prices**.

A major result of this trade deal and revised trade policy (i.e.: Absolute Advantage) with Mexico would eliminate its "Maquiladora" exports to the U.S.A. and **economically force and help** it to greatly improve the economic and political conditions for nearly all citizens in Mexico, and stop our open border, illegal immigration, and drug problems. This would also include the willful return of the many million illegal immigrants now in the U.S.A. to proper, good-paying infrastructure and other economic development work in Mexico. **This would also keep Mexican truckers transporting goods only within Mexico.** It would also cancel the NAFTA Super Highway and "Smart Port" Mexican Customs Office in Kansas City, MO, and **prevent combining Mexico, U.S.A., and Canada into one country.**

3. Tell Congress to **Legislate** by 11/5/2007 to afore-mentioned **Absolute Advantage Foreign Trade Policy worldwide** with Mexico (and worldwide in early 2008), which means that an importing country imports only complementary, not supplementary, products (in most practicable finished form) that it cannot reasonably produce itself. E.g.: U.S.A. would import finished-form **tropical** agricultural products and export finished-form **temperate** agricultural products. *This Would Stop All U.S.A. Improper Imports from All Countries and Greatly Help Solve the Disastrous U.S.A. Trade Deficit and Foreign Debt. Also, it would return most or all of the many million good U.S.A. jobs exported/outsourced over the past 35-45 years.*
4. **Tell (Instruct) your Federal and State Senators and Representatives, and your Governor, to legislate a paper ballot voting system (in place of the machine/computer systems) for legitimate, accurate voting systems nationwide for the November 2008 election.**
