

[Senate Amnesty Betrayal: Last chance to convince Senate](#)

The Senate is making their move on the Illegal Immigration Amnesty/Pardon Bill today (6/28/2007). They already got cloture with 66 votes! Two-thirds of the Senate are open traitors to the American people, and Sen. Brownback, Presidential Doubtful, was one of them.

- It gives illegal aliens fast track citizenship.
- It gives social security benefits on the first visit.
- Illegal aliens can stay here and get these perks.
- Each illegal alien can bring in 11 other family members.
- Aggravated Felons and Gang Members can become legalized by signing a piece of paper (they already routinely falsify documents; what is one more fraud?).
- In-state tuition rates at colleges are given to them.
- Back taxes not paid (for work done illegally) are forgiven for the aliens (not for Americans, not even Mexican Americans).
- It requires **US Citizens** to have a National ID Card to work!

The word is that George Bush wants to sign this Death to America on July 4th. They plan to push it through the House over the weekend. As a side note, if you haven't heard: George Bush has made himself dictator in any emergency he that he might declare.

The military is pushing for this amnesty to increase the numbers of illegal aliens that they are signing up into the military (yes, we have a growing portion of our military that are not Americans at all but essentially hired mercenaries).

[Call to Action #2](#)

We need more faxes and help with a new blockbuster "Where's The Fence?" ad.

I have added each of these targeted Senators to our FaxFire system. We need to keep a constant stream of faxes into these offices and literally the entire Senate -- along with the White House.

[Go here to send your faxes NOW](#)

We also have a blockbuster new "Where's The Fence?"(tm) spot in final development that will specifically target any senator who helps bring this bill back for a vote. These ads will forever affix "amnesty" to the key senators who strike this "amendments for amnesty" deal. I need funds immediately.

Thanks for taking a stand to stop amnesty.
